

2026 Spring Career Fair

*February 17th at the
Allen Family Student Center*

the CHRISTIAN
POLYTECHNIC
UNIVERSITY®

CAREER SERVICES

LeTourneau University's Career Fair provides an excellent opportunity for students to connect with employers and learn about full-time, co-op, and internship positions.

We hope you will make the most of this opportunity by preparing well and attending the fair in the Great Room

Some tips to help you make the most of this event:

- A complete list of employers is available on Handshake
- Download resume guide booklet, go to Drop In Resume Hours and other resume resources on Handshake.
- Familiarize yourself with companies of interest by researching employers, descriptions, websites & career/jobs pages.

- List top companies you want to approach first, then browse.
- Print enough resumes for your list, plus a few extras. Update your LinkedIn Account.
- Bring a nice folder/padfolio/portfolio, have paper & pen handy for notes, and leave backpacks and large bags outside the fair room.
- Dress business professional. Business casual is acceptable if not job seeking but interested in exposure. We will be offering free headshots.
- Prepare for questions about your career interests, knowledge of companies & experience/skills.
- Need help with your resume or have questions about the Career Fair?
- Download on Handshake or pick up a Resume Guide in the Career Services office (AFSC 1st floor) or contact careerservices@letu.edu or 903.233.4467. A pdf copy is available on the Career Services website and on Handshake.
- Drop-in Resume help is held every Tuesday and Wednesday from 12-3:30pm in the Career Services office.

Blast Control System

Blastcontrol.com

Blast Control exists to provide innovative solutions that can truly save lives. We design and manufacture novel pressure test protection systems for many industries around the world, including aerospace, Oil & Gas, and HVAC. Our Pressure Pro® Barrier Systems safeguard people from the risk of projectiles that may be launched in the event of an equipment failure. Pressure Pro® Barriers are essentially blast curtains and blast blankets capable of containing high energy, industrial projectiles. They are applied in a range of ways, from a stand-alone blast blanket that is wrapped around equipment, to larger, more complex configurations involving the integration of Pressure Pro® Barriers to structure systems. The Blast Control team is a tight-knit group, and it is important that any addition to the team not only possesses certain abilities and skillsets, but also values and character traits that align well with our culture. Our team is exposed to a wide array of interesting and unique work, not common in many jobs.

Boston Scientific

www.bostonscientific.com

Boston Scientific is a global leader in medical technology dedicated to transforming lives through innovative solutions that improve the health of patients worldwide. Founded in 1979 and headquartered in Marlborough, Massachusetts, the company develops and manufactures a wide range of medical devices used in interventional cardiology, rhythm management, endoscopy, neuromodulation, and other specialties. With more than 45,000 employees and operations in over 100 countries, Boston Scientific combines cutting-edge science, engineering, and a commitment to advancing patient care, making it a dynamic place for those passionate about improving health and shaping the future of medicine.

Brask, Inc

braskinc.com

We are interested in welding technology, mechanical engineering and general business specializations.

We are looking to fill openings for Design/Application Engineers and open to reviewing candidates with interest or experience in procurement. We are also looking for hire a drafter. Although we don't have any specific openings, we are open to speaking to candidates with administrative experience and/or project management experience as well.

Buckner International

www.buckner.org/careers

Since 1879, Buckner International has been transforming lives through hands-on ministry, serving the most vulnerable from the beginning to the end of life. Buckner is one of the oldest and most distinctive faith-based social service organizations, serving hundreds of thousands of people each year in the United States and around the world. Learn more about our programs and ministry at buckner.org.

Consider exploring open job opportunities at our nonprofit organization. Each role at Buckner impacts the lives served and the hope given to positively impact our world. Our specialties include: Foster Care, Adoption, Family Services, Building Community, Retirement Services, Family Hope Centers, Family Pathways, Camp, Artisan Goods, and Humanitarian Aid.

Chapel Hill ISD

www.chapelhillisd.org

Chapel Hill ISD serves students from Pre-K through 12th grade, providing high-quality educational opportunities that prepare students for success. Our mission is to educate ALL children so they can successfully compete in an ever-changing world, shaping the future, one child at a time, the Chapel Hill way. Through strong community partnerships, collaborative learning environments, and a commitment to excellence, we work to ensure every student is equipped for postsecondary success, the workforce, and lifelong learning.

Community Healthcore

communityhealthcore.com

At Community Healthcore, we provide a place for recovery, resilience, and help empower individuals to reach their life goals. We offer mental, emotional, and behavioral health services to East Texas residents. By promoting dignity, our programs enable adults to live more independent and productive lives, children to be more resilient, and families to be healthier. Through multiple East Texas locations, we have clinicians serving communities in 23 counties. They provide treatment, prevention, and outreach services to more than 16,000 children, families, and adults each year. Our various outreach locations also give us the ability to collaborate with community partners and school districts all across East Texas.

DART Police Department

[DART.org/DARTPolice](https://www.dart.org/DARTPolice)

Dallas Area Rapid Transit (DART) is the mass transit agency for the Dallas metropolitan area and the DART Police Department provides police services for the transportation system throughout 13 cities in 6 counties, covering over 700 square miles. The department has 368 positions, which are comprised of 231 sworn officers and 137 civilian employees.

Given the size of the department, DART Police offers a wide variety of special assignments, such as canine handlers, detectives, motorcycle officers, bicycle officer, special operations officers, drone pilots, training officers, and background investigators. As a medium sized police department, each officer is a valued team member and our officers personally know each other, which leads to a heightened level of support and camaraderie.

ESC Region 10

www.region10.org

Region 10's applicant tracking system, TXED Job Network, provides a centralized dashboard for individuals seeking careers in education. Through our platform, users can explore and apply for job vacancies across the 10 counties serviced by Region 10 in the DFW area

FieldCore. a GE Vernova Company

www.fieldcore.com

GE Vernova is a planned, purpose-built global energy company that includes Power, Wind, and Electrification businesses and is supported by its accelerator businesses of Advanced Research, Consulting Services, and Financial Services. Building on over 130 years of experience tackling the world's challenges, GE Vernova is uniquely positioned to help lead the energy transition by continuing to electrify the world while simultaneously working to decarbonize it. GE Vernova helps customers power economies and deliver electricity that is vital to health, safety, security, and improved quality of life. GE Vernova is headquartered in Cambridge, Massachusetts, U.S., with more than 80,000 employees across 100+ countries around the world. GE Vernova's Gas Power business engineers advanced, efficient natural gas-powered technologies and services, along with decarbonization solutions that aim to help electrify a lower carbon future. As part of the Gas Power One Field Services team, FieldCore installs, maintains and upgrades power generation equipment, enabling operators of the world's energy infrastructure to provide more reliable and affordable energy.

Great Plains Manufacturing

www.greatplainsmfg.com

Great Plains Manufacturing, a proud subsidiary of Kubota located in Salina, KS, is a leader in designing and manufacturing agricultural and construction equipment. With a commitment to innovation and technology, we produce a wide range of products, including tillage implements, skid steers, and landscaping tools. Employing over 2,300 people across eight communities in North Central Kansas, we offer diverse career opportunities in Engineering (Design, Testing, Quality, Lean, and Manufacturing), Information Technology, Purchasing & Supply Chain, Sales & Marketing, and more. Explore your future with us on our careers page at: www.WorkForGPM.com.

Hayter Engineering

haytereng.com

Northeast Texas Civil Engineering firm serving Texas, Oklahoma, and Arkansas offering full range of services for municipal & rural water entities, with emphasis in water and wastewater infrastructure. EEO firm. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

iClassPro

iclasspro.com

iClassPro is the world's leading class management software solution for children's activity centers. Our goal is to solve the dilemma most every business owner in the industry experiences — how to spend less time running a gym, swim, dance or cheer business and get back to coaching, teaching and supporting their mission. Today, we're proud to serve thousands of these businesses around the world with quality-driven software that helps them operate more efficiently, earn more revenue and drive future success. And by constantly listening to customers and what they need, iClassPro keeps getting better.

Johnson, Mirmiran & Thompson

jmt.com

Founded in 1971, JMT is a 100% employee-owned firm that provides a full range of multi-disciplined engineering, architectural, and related services to public agencies and private clients throughout the United States. Our staff of more than 2,000 professionals -- engineers, architects, landscape architects, planners, environmental scientists, surveyors, construction and program managers, inspectors, designers, CADD technicians, and GIS and information technology specialists -- is dedicated to the highest-quality project performance. Let us introduce you to JMT, an 100% Employee Owned Company.

Kilgore ISD

www.kisd.org

Kilgore Independent School District prepares today's students for tomorrow's opportunities through quality instruction and academic excellence. Kilgore ISD is located in the piney woods of northeast Texas between Dallas, Texas and Shreveport, Louisiana and covers 106 square miles in both Gregg and Rusk counties. Kilgore ISD employs more than 500 staff members who serve over 4,000 students across six campuses. Find out more about Kilgore ISD through our website, visit www.kisd.org or follow KISD on Instagram (@kilgoreisd) and Facebook (@KilgoreBulldogs)

Kiln-Direct.com

Kiln-Direct.com

"We have been an industry leader in the heat treatment, sterilization, and drying of wood products for over 30 years, with more than 2000 units running worldwide, and about a 70-80% market share in the USA. As interest in renewable energy continues to evolve, we are currently developing and launching products that include a hot water biomass heating system, as well as products that utilize solar energy. We are a Christian-led company called to serve team members, customers, and vendors by operating a business efficiently and with integrity. Guided by truth and honesty, we aim to steward what God has placed in our care to manage to the benefit of all."

Kimley-Horn

kimley-horn.com

"Ranked as one of Fortune Magazine's "100 Best Companies to Work For," Kimley-Horn prides itself on hiring high-achieving, dedicated, and reliable professionals. With staff in over 100 offices nationwide, we are one of the nation's premier engineering planning and design consulting firms. We offer services to the private and public sectors in a wide range of disciplines including land development, transportation planning, traffic operations, roadway design, structures and parking services, water resources, environmental, aviation, wireless communications, transit and intelligent transportation systems, urban redevelopment, and landscape architecture. Interested in learning more? Go to kimley-horn.com"

Komatsu Mining Corporation

[komatsu.jobs](https://www.komatsu.jobs)

Komatsu is a world leader in manufacturing construction, mining, forestry, and industrial heavy equipment. Founded in 1921, Komatsu has a long history of quality, reliability, innovation, and excellence. Headquartered in Tokyo, Japan, Komatsu facilities, distributors and dealers are in more than 140 countries and employ more than 60,000 people. Komatsu offers a diverse and challenging work environment, where you can grow your skills and career, and contribute to a sustainable, clean-energy future. If you are looking for a company that values your talent and potential, be a part of something big and join a team that is shaping the world!

L3 Harris – Aerojet Rocketdyne

l3harris.com

"L3Harris' Aerojet Rocketdyne Missile Solutions division is a leading provider of advanced propulsion systems and technologies for missile and defense applications. Our team designs, develops, and manufactures innovative solutions that power a wide range of missile systems critical to national security. We are committed to excellence, safety, and continuous improvement, offering exciting career opportunities for individuals interested in engineering, manufacturing, and supporting the next generation of missile technologies. Join L3Harris Missile Solutions to work alongside industry experts and make a direct impact on the future of defense."

Lockheed Martin

lockheedmartinjobs.com

"Not all first jobs are created equal. This is an opportunity to work on real-world technologies that make a difference. You might support the design of next-generation aircraft, help develop autonomous systems, contribute to AI research, or play a role in advancing space capabilities. The work is complex, and your contributions will matter. You will be part of a team that values technical skill, curiosity, and collaboration. From day one, you will be trusted to take ownership of meaningful projects. You will learn from experienced professionals, access the tools and support you need to grow, and see how your work connects to larger missions in defense, exploration, and innovation. This is a place for engineers, scientists, and problem-solvers who are ready to engage deeply, think critically, and build with purpose. You will not just launch a career. You will be part of something bigger. This is where the best are built."

Longview Regional Medical Center

longviewregional.com

Longview Regional Medical Center is your community healthcare provider, a 224-bed facility. We believe in the power of people to create great care. We're 185 active physicians strong, and are quality-driven, nationally recognized for chest pain and stroke care, and are dedicated to great patient service, with multi-specialty clinical expertise. And we work hard every day to be a place of healing, caring and connection for patients and families in the community we call home.

Nucor Buildings Systems

nucorbuildingsystems.com

"Nucor Buildings Group (NBG), a proud Nucor product group, is one of North America's largest and most experienced manufacturers of metal building systems. With multiple locations throughout the United States, NBG is proud to design world-class building solutions tailored to meet the needs of any market including commercial, industrial, agricultural, and institutional. Our brands include American Buildings, CBC Steel Buildings, Kirby Building Systems, and Nucor Building Systems. NBG offers work/life balance and a variety of benefits and performance incentives. We take pride in connecting teammates to meaningful work and focus heavily on both personal and professional development. Whether your background is in engineering and design, information technology and software development, marketing, or sales, with Nucor Buildings Group you can go as far as your drive and ambition will take you."

SPEA America LLC

spea.com

"Established in 1976, SPEA is a world leader in the field of automatic test equipment for electronic boards. SPEA machines test the electronics of today and tomorrow.
